ABOUT US

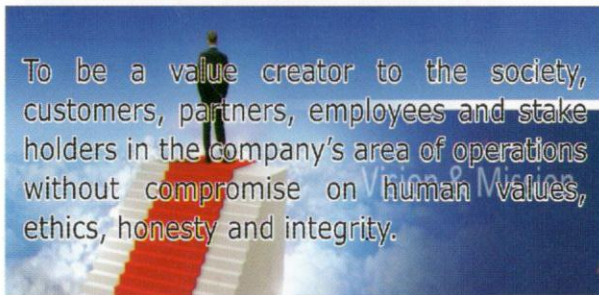

POG Engineering Consultants Private Limited was established in the year 2009 to cater the ever increasing needs in the Power, Oil and Gas Sectors. POG offers customized & specialized techno commercial consultancy services for the Power, Oil and Gas Sectors.

VISION

To be a leading enabler for the formation of an energy efficient and energy sufficient world.

MISSION

To be a value creator to the society, customers, partners, employees and stakeholders in the company's area of operations without compromise on human values, ethics, honesty and integrity.

Testing & Commissioning Services for Power Equipment

We have a dedicated team which undertakes testing & commissioning activities for various equipment like Circuit Breaker (CB), Current Transformer (CT), Potential Transformer (PT), Capacitive Voltage Transformer (CVT), Isolator, Surge Arrestor, Power Transformer, ICT, MV Switchgear etc for various Substations up to 765kV level including e-BOP projects.

Protection & Automation System

Our Relay Division has separate team which undertakes testing and commissioning activities of all types of relays from various leading manufacturers like ABB, SIEMENS, GE, ALSTOM, SEL, ERL, SCHNEIDER, Our Automation team can handle IEC 61850 Signal Configuration, Integration of Goosing between IEDs, SCADA Co-ordination and SCADA commissioning.

Design & System Studies

Our Design and Engineering Department provides quality engineering services to the major customers in the Transmission, Distribution and power plant area. Our Engineers are well qualified and also handle other activities like Load Flow analysis, Protection Audit, Fault Analysis, Relay Setting Calculation, Adequacy Checks, Equipment sizing etc.,

Retrofitting and Refurbishment Activities

We undertake retrofit and refurbishment activities of old & aging installations. Our team can handle all type of activities like dismantling old equipment, cut outs, new wiring, mounting of new equipment and final commissioning up to 765kV level including e-BOP projects.

Annual & Routine Maintenance and Testing

We are having separate division for undertaking all types of Annual and Routine Maintenance activities.

Consultancy Services

The activities of consultancy division include providing turnkey solutions for projects, project management, Energy Audits, Inspections, Certifications etc

Training

We provide customized training services and have a well equipped lab for facilitating the same. On site training can also be provided on request.

Monitoring & Diagnostics

We provide Installation & Commissioning services for Dissolved gas Analysers (DGA) for transformers / reactors of all ratings.
